Collected Knowledge & Wisdom on

COLOURlovers API

Provides:

This API provides random colors and palettes based on a database of palettes created and saved by other users.

Key Provisioning:

- No keys.

Pain factor (*0=ezpz...5=nightmare*): **_0_**

Quotas:

- No quotas.

The Good:

- The Documentation is very clear, and there is no requirement for keys.

The Bad:

- There is no way to specify to get palettes of unique hues.

The Ugly:

- None.
